**Duck Creek
Technologies**

<https://www.duckcreek.com/>

Duck Creek Technologies provides cloud-native SaaS core delivery insurtech, including policy, billing, payments, rating, claims and reinsurance management solutions. Duck Creek's solutions enable general and health insurers to reimagine the idea of traditional coverage, innovate and continuously deliver profitable products and policyholder confidence.

Today's insurance marketplace requires that insurers be faster, more responsive, smarter and more innovative than ever before. To achieve this, insurers need a suite of core delivery solutions that are designed to allow change to be implemented quickly and easily, and that work seamlessly with one another. Duck Creek's solutions deliver this thanks to low/no-code configuration, native cloud architecture, the Product Factory and silent fortnightly updates (not disruptive upgrades).

Duck Creek's cloud-native SaaS core delivery solutions power some of the world's biggest insurers, including CHUBB, Berkshire Hathaway Specialty Insurance, Suncorp, Geico and Progressive and is now powering HDFC Ergo General Insurance in India.

www.accuratesurveyor.com

With Accurate, Accuracy is always at its Finest!!!

Accurate is a leading service provider established by a team of highly qualified and experienced insurance professionals and loss adjusters. We specialize in independent loss adjusting, survey and assessment, claims auditing, risk engineering assessment and management, as well as consulting services.

Our firm is known for its independence, high service quality standards, and strong technical expertise. These strengths have been developed over the years through strict adherence to international loss adjusting standards while operating within the domestic market.

Accurate is a key partner for the domestic insurance market as well as international stakeholders involved in commercial and technical lines of business. We provide a comprehensive, technical, and proactive approach to claims handling and underwriting requirements, ensuring reliability, credibility, and confidence in every engagement.

Our leadership team brings deep industry knowledge and extensive experience, which continues to drive the firm's growth and performance. We have proven expertise in handling large and complex claims, catastrophic events, and risk management assignments for major insurers, reinsurers, and large corporate clients.

The Group has demonstrated consistent and rapid growth within the General Insurance sector across India, the Indian subcontinent, and the MENA (Middle East and North Africa) region.

Our X- Factors:

- Proactive Mitigation of Loss
- Strategic Negotiations
- Uncompromising Turn Around Time
- Robust Network of Vendors
- Extensive Worldwide Network of Claims Handling Associates

<https://www.acrossassist.com/>

Across Assist is an agile, AI-enabled assistance and assurance company headquartered in Gurgaon. Our 360-degree assistance platform offers fully customizable products across travel, medical, automobile and electronics categories ensuring faster service response, greater transparency and a superior customer experience at every touchpoint.

With innovation at our core, we leverage smart workflows, predictive insights and automated service orchestration to build smarter value-added propositions across both embedded (Insurance + Assurance) and stand-alone products. Operating on B2B2C and B2B2E models, we provide a robust, tech-led service network covering 19,000+ pin codes in India and 190+ countries worldwide.

As India's fastest-growing assurance brand, we are dedicated to reshaping the landscape of value-added services within the insurance ecosystem.

Core Products:

- Travel + Medical Assistance: Available as part of travel insurance or as a standalone service.
- Automobile Assistance: Integrated into motor, personal accident and extended warranty insurance or as stand-alone offerings such as roadside assistance.
- Electronics Assistance: Comprehensive solutions for mobiles, appliances and gadgets, cyber and home including insurance and end-to-end assistance services.

About Us

Amplify Health is the leading provider of advanced health technology and business transformation solutions built for Asia. Powered by a clinically enriched data foundation, our integrated health intelligence platform unites modular AI solutions, context-aware automation, and deep regional expertise to address the unique challenges of Asia's health systems.

Problems We Address

Amplify Health aims to improve the sustainability of healthcare systems and health outcomes in Asia through innovative, AI-powered technology at every point of the healthcare value chain. For health payors, we are helping to reduce medical claims leakage with smarter, faster adjudication.

Platform Capabilities

- Unified Pan-Asian Health Data - One of Asia's largest standardised, localised, and enriched health datasets – the foundation of all our solutions.
- Localised Health AI Models - Our purpose-built AI models are trained on Asian health data.
- Modular Product Architecture - Our solutions are designed for flexible adoption.
- End-to-End Healthtech Expertise - A cross-functional health tech team brings expertise across data science, clinical management, health economics, and behavioural science.
- Results-guaranteed Partnership - We succeed when you do. Our mission-led engagement model is designed to give you fast payback via immediate savings and sustained profits.

Solutions

- Claims Administration - Accelerates operational efficiency by enabling pre-configuration of health benefit definitions, claims guidelines, and provider payment arrangements.
- Payment Integrity - Uncover hidden FWA with precision, analysing line items and historical claim patterns to identify suspicious behaviour, billing outliers, and collusive networks.
- Provider Management - Build high-value networks with data-driven provider performance insights.
- Health Claims Data Enrichment - Map unstructured claims data to standardised clinical codes, enabling reliable downstream analysis for provider assessment and fraud detection.
- Business Intelligence - Transform siloed data into actionable health system insights.
- Chronic Disease Management - Drive behaviour change to reduce long-term risk.
- Member Risk Profile - AI-driven framework that enables predictive management, providing visibility on emerging trends that can prompt interventions to improve member population health.
- Behavioural Change Programme - An evidence-backed behavioural change platform that incentivises healthier lifestyle habits, enabling insurers to manage member population health.

Awards

- Singapore Business Review: AI in Health Insurance - 2025
- ITC Asia: Technology Initiative Excellence - 2025
- Celent: Model Insurer - Data, Analytics, & AI - 2025

Assuretrac: Accelerating Innovation in Insurance Technology & Operations

Assuretrac is a trusted partner for insurers, MGAs, brokers, and Insurtech startups, delivering AI-powered, cloud-native, and compliance-driven solutions across the insurance value chain. With deep domain expertise and a global presence, we help clients modernize operations, streamline processes, and unlock new growth opportunities.

Our Core Capabilities

- Technology Enablement: AI/ML, GenAI, Cloud Engineering, Data Insights, and Quality Engineering
- Operations Services: Policy servicing, claims, underwriting, billing, customer support, and contact center solutions
- Implementation & Integration: Seamless deployment and support for platforms like Guidewire, Duckcreek, OneShield, and legacy systems
- AI-Powered Use Cases: Smart underwriting, fraud detection, claims automation, customer acquisition, and embedded insurance

Who We Serve

- MGAs & Carriers: End-to-end tech and ops support including program administration and premium generation
- Insurtech Startups: Strategic implementation, integration, and business consulting
- Broker Agencies: AMS workflow automation, quoting, renewals, and CRM optimization

Why Assuretrac?

- Insurance-Focused Leadership with 20+ years of experience
- Skilled, Certified Workforce across major insurance platforms
- Flexible Engagement Models: Subscription, project-based, hybrid, and freemium options
- Compliance-Driven Solutions: Adhering to ISO 27001, PCI-DSS, SOC2, and CIS standards
- Global Reach: Offices and delivery centers across the US, Europe, Asia-Pacific, and India

Key Business Objectives

Attributum is expanding its offerings in market verticals, and we are seeking to meet with insurance carriers who are looking at AI driven digital transformation and willing to share their challenges. Attributum is open to pilots as a proof of concept for our solutions.

- 1.Primary focus – Health & Life insurers / Healthcare companies that are looking at automating their laborious & document driven process.
- 2.Secondary Focus – P&C Insurers who focus on personal property / small business insurance and looking at straight through processing of applications.

AutoWiz

www.autowiz.in/insurer.html

AutoWiz – Connected Vehicle Data & Insurance Telematics

AutoWiz is a leading connected vehicle data analytics and telematics technology provider serving insurers, OEMs, fleets, and mobility partners across India. With a strong track record of delivering scalable telematics programs, AutoWiz enables Insurers to rapidly launch digital-first motor insurance products, including pay-how-you-drive (PHYD) and pay-as-you-drive (PAYD) offerings. Our flexible technology stack supports smartphone-only telematics, OBD device-based connected car solutions, and hybrid models, allowing insurers to choose the optimal trade-off between cost, accuracy and speed-to-market.

At the heart of AutoWiz's insurance offering is AutoBeacon, its advanced smartphone-based driving behaviour analytics platform. AutoBeacon delivers high-accuracy trip detection, risk scoring, crash detection, and personalized driving insights—without requiring hardware installations. The SDK integrates seamlessly into Insurer apps, enabling rapid deployment of UBI programs with minimal capex. AutoBeacon has been extensively tested in Indian and several global driving conditions and supports both 4-wheeler and 2-wheeler telematics.

Our analytics stack also provides insurers with portfolio-level dashboards, automated customer engagement tools, and underwriting-ready data, helping improve risk segmentation, reduce claims frequency, and enhance customer retention. With fast pilots, flexible commercial models, and strong data-privacy architecture, AutoWiz is an ideal partner for insurers looking to innovate next-generation motor insurance products and unlock data-driven growth.

Key Business Objectives

- The PitchBook will help us achieve multiple key business objectives through international association partners, including:
 - Identifying new clients and distribution partners for Bima Grow across global markets.
 - Exploring strategic collaborations with InsureTech players, digital platforms, and insurance ecosystem partners.
 - Raising funds to accelerate product development, technology upgrades, and market expansion.
 - Expanding our team by attracting international talent, mentors, and domain experts.
 - Showcasing our product capabilities to potential investors, partners, and collaborators.
 - Building brand visibility in global InsureTech communities and positioning Bima Grow as a scalable, high-impact solution for insurance advisors.
 - Creating networking opportunities that can open doors to new innovations, integrations, and long-term partnerships.
- These objectives will strengthen our growth path and help us take Bima Grow to a broader international audience.

<https://bimapay.in/>

Founded in 2022, BimaPay Finsure is an InsurTech company, redefining how Indians access and afford insurance. As the country's leading unified premium financing enabler, we are making insurance not just a product, but a financially inclusive habit for every Indian.

Our mission is to bridge the insurance affordability gap by digitally empowering individuals and businesses with instant, hassle-free financing solutions. With Insurance Premium Financing, Surrender Value Financing and Corporate Insurance Premium Financing, we're helping customers manage cash flow smartly while staying protected.

What sets BimaPay apart? It's our 100% digital & real-time lending journey—from seamless onboarding, instant credit assessment, no income verification to quick policy issuance, we offer a frictionless and end-to-end experience. Through our strategic collaborations with insurance companies, lenders, and intermediaries, we're building a powerful channel ecosystem that drives greater reach, trust, and adoption across the insurance landscape.

We take pride in the growing impact of our unique EMI-based insurance model, especially in Tier 2 and Tier 3 cities—where it's cultivating a sustainable habit among Indians.

At BimaPay, we don't just offer financing—we're changing mindsets, increasing insurance penetration, and shaping the future of InsurTech in India.

Our Milestones. Our Momentum.

- Financing 15,000 policies monthly
- Surpassed ₹600 Cr in disbursements in FY 2025
- Trusted by 3L+ customers
- Delivering 80% approval rates—powered by our robust credit model
- Rolled out India's first premium financing model for corporate insurance
- Driving more than 50% of premium financing volumes single-handedly

BeyondSure – The Future of InsurTech Distribution

Reimagining Insurance Infrastructure for India:

BeyondSure is a horizontal InsurTech SaaS infrastructure platform powering modern insurance distribution across B2C and B2B2C ecosystems. It enables NBFCs, Insurance Brokers, POSPs, and digital partners to operate on a single, compliant, and scalable technology backbone, unlocking efficiency, transparency, and sustainable growth.

Ecosystem Opportunity: India's insurance distribution is expanding rapidly but remains fragmented, compliance-heavy, and operationally inefficient. BeyondSure addresses this gap by standardising and digitising the entire insurance value chain—from customer acquisition to online purchase, renewals, commissions, and real-time claims servicing.

Platform Value Proposition:

- End-to-End Distribution Infrastructure: Unified workflows covering lead generation, instant online purchase, automated renewal reminders, commission tracking, and real-time claims visibility
- Pre-Purchase Transparency (Know Your Policy): Clear, standardised policy insights coverage, inclusions, exclusions, waiting periods, and add-ons driving informed buying and reduced mis-selling
- Multi-Stakeholder SaaS Platform: Role-based access for Insurers, Brokers, POSPs, Employees & Customers, enabling ecosystem-wide participation on one platform
- Revenue & Compliance Enablement: Real-time MIS, performance dashboards, and IRDAI-compliant, audit-ready reporting
- Scalable Economics: BeyondSure improves unit economics by reducing distribution costs, increasing partner productivity, and enabling higher customer lifetime value through renewals and servicing efficiency.
- Strategic Vision: To become the default digital infrastructure layer for insurance distribution in India, supporting ecosystem scale, regulatory alignment, and long-term value creation.

BeyondSure

Building the operating system for the future of insurance distribution.

www.camsrepository.com

www.camsonline.com

CAMSRep is the fastest growing IRDAI-licensed Insurance Repository that is transforming policyholder experience and **enhancing Insurer capabilities**. It manages over **~10 million e-Insurance Accounts**, over ~13 million e-Policies, and is partnered **with 50+ insurers**.

CAMSRep's mission is to elevate policyholder experience directly (through Insurance Repository) and by supporting insurers through capability and capacity solutions. CAMSRep offers a complete Suite of Post-Purchase Services, Value Added Services, and Plug 'n' Play Service Modules (KYC, Payment Gateways, Data Analytics etc.)

We engage with policyholders through a multi-channel network - Bima Central (full-service policyholder platform), Call Centres, Service Centres, and Feet on Street (FOS) agents to personalise and enhance customer experience.

CAMSRep is at the forefront of driving meaningful change in the insurance industry; building a robust ecosystem that simplifies the insurance journey for policyholders and empowering insurers to thrive in a dynamic market.

Bima Central - Bima Central is India's largest 'Insurance Portfolio Management Platform' built by CAMS Insurance Repository. It revolutionizes customer experience by aggregating & unifying insurance benefits for 50 Cr + policyholders across 50+ Insurers.

This multilingual and omnichannel platform empowers users to discover / add policies, manage all insurance transactions, and get full visibility into claims settlement. The platform has scaled to

- 15L Unique Active Users
- 10% International User Base
- 46% Penetration in Tier II & III Cities

Insurers can harness Bima Central to effortlessly connect and engage with policyholders, providing a seamless and efficient experience. The platform offers numerous advantages including syndication benefits, 360-degree customer view, and access to award-winning customer journeys.

Bima Central Administrator - Bima Central Administrator is a first-of-its-kind portal that will soon be launched for insurers, distributors and value-added service providers to fulfill and monitor policyholder interactions and service requests.

CAMS - CAMS is a financial infrastructure and service partner to the asset management industry and provides platform-based services to the BFSI segment. The Company is India's largest registrar and transfer agent of mutual funds with an aggregate market share of ~68% based on mutual fund average assets under management ("AAUM"). Its mutual fund clients include ten of the fifteen largest mutual funds. CAMSRep is wholly owned subsidiary of CAMS (Computer Age Management Services Lt.)

www.careplix.com

CarePlix acts as a digital health enablement platform that helps insurers move from reactive claims management to proactive risk prevention and cost optimization. Through remote vitals screening, teleconsultation, and continuous health monitoring, CarePlix enables early risk identification, real-time member stratification, and timely interventions that help reduce avoidable hospitalizations and high-cost claims.

In addition, CarePlix builds agentic, intelligent workflows across the insurance value chain—automating data capture, decisioning, alerts, and follow-up actions—to ensure seamless coordination between members, care teams, and insurer operations.

Its API-driven architecture integrates smoothly with core insurance systems, supporting underwriting insights, care management, and wellness programs, while enhancing member engagement through frictionless digital care journeys. For insurers, CarePlix strengthens preventive healthcare initiatives, improves loss ratios, supports value-based care models, and delivers a scalable, data-driven, and seamless insurance experience.

Time tested and reliable and working with major insurance conglomerates like Aditya Birla Group (HI & LI) , ICICI Lombard , SBI General Insurance , IndusInd General Insurance , AVIVA Life Insurance and many others from across the globe in SouthAfrica & UAE

COVERSURE

www.Coversure.in

CoverSure is a next-generation digital insurance platform that empowers individuals and businesses with smarter insurance solutions. Designed to cater to both B2C and B2B2C models, CoverSure bridges the gap between customers, intermediaries, and insurers by delivering a seamless, personalized, and tech-driven experience.

For consumers, CoverSure simplifies the insurance journey by offering tools like "Know Your Policy" for clarity and awareness, a Risk Analyzer for better decision-making, and niche insurance offerings tailored to specific needs.

For businesses, CoverSure serves as a Platform-as-a-Service (PaaS) solution, enabling seamless integration of insurance offerings into existing ecosystems. From onboarding to policy servicing and claims management, CoverSure enhances operational efficiency and customer engagement.

By leveraging advanced AI and machine learning, CoverSure drives innovation across underwriting, pricing, and servicing, ensuring a transparent and intuitive insurance lifecycle. Our mission is to revolutionize the way insurance is bought, sold, and managed—making it accessible, personalized, and relevant for all stakeholders.

www.datasciencewizards.ai

Data Science Wizards (DSW) delivers enterprise-grade AI platforms that help regulated organizations deploy trusted, auditable AI and GenAI at scale. We provide a single, secure foundation that reduces time-to-value, enforces governance and explainability, and enables scalable deployments across cloud, hybrid, on-premises, or air-gapped environments.

Core offerings:

- DSW UnifyAI – A production-ready platform that slashes time-to-value, reduces operational risk, and enforces audit-first governance across the entire AI lifecycle.
- DSW AgenticAI – An audit-first agentic orchestration platform enabling A2A collaboration, role-based guardrails, human-in-the-loop workflows, and immutable audit trails for BFSI.
- insurAInce – A vertical solution suite that combines UnifyAI and AgenticAI with pre-built use cases, connectors, and playbooks to help insurers deploy compliant, high-impact AI and GenAI use cases faster.
- Open-source technologies & core banking modernization – Recognized by Infosys Finacle as its Open Source Services Partner FY25, DSW delivers open-source-driven core banking solutions and modernization for global banks.

We empower organizations to run scalable, secure and production-ready AI, and are actively edging towards building the enterprise OS for AI. Built in India, for the world

desible.ai

Desible.ai is a next-generation conversational AI platform built specifically to transform how insurance enterprises manage customer engagement across lead generation, policy sales, renewals, servicing, and claims support. It acts as a digital calling and engagement workforce, an always-on execution layer that ensures every prospect and policyholder is reached instantly, consistently, and in full compliance across voice, WhatsApp, and chat.

Insurance companies invest heavily in marketing and distribution, yet a significant percentage of leads, renewals, and service requests fall through due to delayed follow-ups, manual calling limitations, and operational leakages. Desible.ai solves this end-to-end by automating outreach, qualification, reminders, and nurturing with domain-trained AI that understands IRDAI-compliant disclosures, objections, multilingual conversations, and complex campaign logic all with enterprise-grade security, auditability, and control.

With seamless live handoff to human agents when required, Desible.ai boosts policy conversions while reducing the burden on call center teams. The platform integrates deeply with CRMs, dialers, lead management systems, and core insurance workflows, functioning as a scalable digital workforce that ensures no lead is missed, no renewal is delayed, and no customer waits.

Today, Desible.ai powers 1,00,000+ conversations every single day across large enterprises delivering higher connect rates, 61% lower dependence on manual calling, faster lead-to-policy conversion, improved renewal collections, and stronger retention outcomes. From outbound sales and renewals to onboarding, servicing, claims support, and retention campaigns, Desible.ai enables insurance organizations to run conversations the way they should be consistent, compliant, measurable, and revenue-driven.

<https://dvaraedairy.com/>

Dvara E-Dairy operates as a technology-driven dairy accelerator transforming rural India's livestock sector through integrated financial services and digital innovation. The Surabhi Platform enables systematic scaling for dairy households from 2-cattle operations to 20-cattle enterprises within five years.

The company's insurtech capabilities represent a significant breakthrough in livestock insurance. MuzzleID biometric technology creates permanent, tamper-proof digital identities for cattle using unique muzzle pattern recognition, eliminating traditional identification challenges that have constrained rural insurance penetration. This innovation enables precise cattle verification during policy issuance and claims processing, reducing fraud while accelerating settlement timelines.

Dvara E-Dairy has provided insurance coverage for over 2 lakh cattle through digital processing systems that streamline policy administration and claims management. The platform integrates AI-driven cattle scorecards that assess health status, productivity potential, and asset value, enabling accurate risk-based pricing for insurance products. Automated claims processing reduces settlement time from 30 days to 5 days through digital documentation and biometric verification.

The Insurtech infrastructure has attracted significant interest at industry events including IndiaInsureTech, positioning the technology as a scalable solution for livestock insurance across emerging markets. The platform facilitates seamless integration with multiple insurance partners through standardized APIs, supporting cattle, goat, and sheep insurance products. Combined with ₹90 crores in loan disbursements and management services for 1 lakh cattle, the platform demonstrates comprehensive risk mitigation capabilities for rural financial inclusion.

Ediplis Counsels

<https://www.ediplis.com/>

Ediplis Counsels is a globally recognized law firm based out of India and has offices in 4 main cities of India, namely, Bangalore, Mumbai, New Delhi and Jaipur. Originally beginning as an IP boutique firm, the firm has now grown to be a leading full-service national firm providing extensive legal, contractual, regulatory, and IP support to clients across the country. The firm's core practice areas and sector expertise include Corporate Commercial, Corporate M&A, Intellectual Property (including patents), Litigation and Arbitration, Technology Media Telecommunications, Data Protection, Media and Entertainment, Insurance and Finance, Employment and Labour, and Fintech and Regulatory.

The Firm's Fintech/Insuretech practice involve all activities such as registration with regulatory authorities, legal & compliance support, drafting and vetting of agreement, compliance testings, compliance tracking, providing expert opinions, litigation support, etc. where they help the compines to work with lean legal teams and support them as an extended arm of the company itself.

The IP practice groups have been handling large IP portfolios of clients ranging from multinational organizations to SMEs, start-ups and prominent Indian educational establishments..

While the firm already had an active litigation practice from the outset, the litigation and dispute resolution expanded in the past few years significantly. The firm's senior partners are known for providing litigation counselling, support, representation as well as strategies for civil and commercial matters, including rights enforcement and defense in their respective domains of expertise.

Making Motor & EV Insurance Predictive, Not Reactive

EEVNAT Deeptech Innovations is a deep-tech company enabling insurers, OEMs, and ecosystem partners to launch, manage, and scale next-generation motor and EV insurance programs using a Digital Vehicle Twin (DVT) platform.

Our platform continuously mirrors each physical vehicle in the cloud using real-time CAN and sensor telemetry, converting vehicle behavior, battery health, and usage patterns into actionable risk intelligence. This allows insurers to move beyond static underwriting and claims-only models toward usage-based, condition-based, and prevention-first insurance.

EEVNAT makes insurance smarter, fairer, and more sustainable by aligning pricing, coverage, and claims decisions with how vehicles are actually built, used, and stressed on the road.

What We Enable

- Usage-Based Motor Insurance (PAYD / PHYD / UBI) - Dynamic risk scoring based on real driving and vehicle behavior
- Battery Insurance & Extended Warranty - Predictive battery degradation and thermal risk assessment
- Claims Intelligence - Pre-incident telemetry to validate causality and reduce fraud
- OEM & Fleet Risk Programs - Continuous vehicle health monitoring and early-warning alerts

Platform Highlights

- Digital Vehicle Twin for each insured vehicle
- Real-time CAN-level telemetry and cloud analytics
- Predictive models for battery, motor, braking, and thermal systems
- API-first integration with insurers, TPAs, OEMs, and platforms

Why EEVNAT

- Continuous risk intelligence vs form-based underwriting
- EV-native focus on battery and powertrain risks
- Engineering + AI approach, not black-box scoring
- Designed to reduce loss ratios, not just process claims

- Form strategic partnerships with insurers and automotive OEMs for co-development and deployment
- Validate predictive risk and loss-ratio improvement models using real-world vehicle telemetry
- Engage with strategic and institutional investors aligned with insurtech and mobility deep-tech
- Raise strategic growth capital to scale the Digital Vehicle Twin platform internationally
- Connect with corporate venture arms of insurers and OEMs

<https://www.eicoretech.com/>

Eicore is a software and services company set up by seasoned insurance experts, based out of India. With over a decade of successful operations spanning India, APAC, and MEA regions, Eicore's flagship Health Insurance Business Management System – HealthBuzz – has emerged as a leading core PAS & Claims solution for carriers. Building on this installed base, Eicore is now developing OneBuzz, an AI-first, multi-line platform designed for the next decade of insurance operations.

HealthBuzz: Health Insurance Business Management System (Core PAS & Claims)

HealthBuzz provides end-to-end policy administration and claims management for health insurers, supported by portals for customers, corporates, and intermediaries. HealthBuzz is designed for faster product launches and operational efficiency while maintaining low cost of ownership, and integrates with common insurer ecosystems.

OneBuzz: AI-first Core PAS, Claims & Workflow Orchestration Platform (Health + Non-Life)

OneBuzz is Eicore's next-generation core platform for carriers, designed to unify policy administration, claims, and operational workflows across health and broader non-life lines. Built on configurable, high-fidelity data models and modular, composable components, OneBuzz enables insurers to continuously launch and iterate products faster, while preserving determinism, governance, and auditability across critical workflows.

Key capabilities include:

- Configurable workflows and role-based workbenches (with an AI-assisted roadmap for triage, routing, summarisation, and decision support)
- Dynamic configuration and rules to reduce hardcoding and accelerate change cycles
- Stakeholder portals tailored for customers, corporates, and intermediaries (extended across lines)
- Enterprise-grade controls: approvals, overrides, traceability, and operational visibility

Both HealthBuzz and OneBuzz follow an integration-first approach, integrating with legacy systems, Document Management Systems, web aggregators, and communication tools (email, SMS, WhatsApp), and supporting reporting/accounting ecosystems including Tableau, Qlik, SAP, and Sun Systems.

Trusted by leading insurers including AXA, Liberty, Generali, Liva, and Cigna, Eicore enables insurers to achieve quicker time-to-market while maintaining a low cost of ownership—now extended through OneBuzz into a more adaptable, AI-ready platform foundation.

Finexure

Introduction

Finexure Consulting is a specialised strategic risk, regulatory, and insurance advisory firm serving the BFSI ecosystem across India, Southeast Asia, and the Middle East. We partner with insurers, insurance brokers, corporate agents, NBFCs, fintechs, and emerging insurtech platforms to address complex regulatory, operational, and technology-driven challenges. Our work spans compliance advisory, governance frameworks, cyber and data protection readiness, and insurance distribution consulting. Combining deep domain knowledge with execution-focused methodologies, Finexure delivers practical, implementable solutions that strengthen institutional resilience, enhance regulatory confidence, and enable sustainable business growth in an increasingly regulated and digital operating environment.

Our Approach & Capabilities

Finexure Consulting operates at the intersection of regulation, risk, technology, and insurance operations. Our advisory services are designed to help organisations move beyond checklist compliance toward mature, outcome-driven risk and governance frameworks. We support clients across the full lifecycle—from regulatory licensing and compliance audits to process redesign, digital transformation, and enterprise risk management. Our expertise covers IRDAI-regulated entities, data protection and cybersecurity frameworks, AML and financial crime risk, distribution model design, and claims and operations optimisation. We adopt a hands-on approach, working closely with boards, senior management, compliance teams, and technology stakeholders to ensure alignment between regulatory expectations and business objectives. Finexure's consulting philosophy emphasises clarity, accountability, and execution, ensuring that recommendations translate into measurable improvements in control effectiveness, operational efficiency, and stakeholder trust.

Engagement Model

Finexure Consulting delivers strategic advisory through project-based, retainer, and audit-led engagements. With regional experience and sector-specific expertise, we help BFSI institutions navigate regulatory change, strengthen governance, and build future-ready operating models aligned with evolving risk and compliance expectations.

Key Business Objectives

- Collaborations

<https://finnulate.ai/>

FTN Solutions & Advisory Pvt. Ltd. is building Finnulate, an AI-powered Compliance Operating System for regulated industries, with a primary focus on BFSI and InsurTech ecosystems.

Finnulate unifies regulatory requirements across jurisdictions and translates them into structured tasks, SOPs, controls, and automated workflows. The platform provides real-time compliance visibility through dashboards, health scores, and gap analysis, enabling institutions to move from fragmented, manual compliance to a single, intelligent system of governance.

Designed with a clear forward roadmap, Finnulate is evolving from a Compliance OS into a full Enterprise Risk Management Operating System (ERM OS), linking regulations, controls, residual risks, and board-level oversight within an integrated governance framework. The platform enables organisations and innovation hubs to embed compliance-by-design and risk-by-design into digital financial innovation.

Key Business Objectives

- Client Acquisition & Market Access
- To identify and engage regulated financial institutions, insurers, and InsurTech players across global markets seeking AI-led compliance, governance, and risk management solutions.
- Strategic Partnerships & Ecosystem Integration
- To build alliances with InsurTech, RegTech, and FinTech platforms, system integrators, and advisory firms for joint offerings, sandbox pilots, and market expansion.
- Regulator & Policy-Led Engagements
- To collaborate with regulators, industry bodies, and innovation hubs on compliance-by-design frameworks, regulatory sandboxes, and capacity-building initiatives.
- Capital & Growth Enablement
- To engage with strategic investors and innovation funds aligned with RegTech, InsurTech, and enterprise risk management platforms.
- Talent & Capability Building
- To attract domain-led talent and academic collaborations for building global-ready AI, compliance, and governance capabilities.

<https://www.finsall.com/>

Finsall - Financing Insurance for All - is a pioneer of the insurance premium financing industry in India. Finsall aims to improve affordability of insurance policies for customers who are unable to pay the entire insurance premium amount upfront, by providing them with an option for Insurance Premium Financing. Finsall provides a seamless and digital technology platform for insurers and insurance intermediaries to finance any type of general insurance policy for both retail and SME customers. Finsall's proprietary platform has tied-up with lenders, insurance companies, brokers and other intermediaries to ensure that the customers have a seamless experience in premium financing.

<https://floatbot.ai/>

Floatbot.AI is a Conversational AI (Voice First) + Human-in-Loop Platform to Transform Insurance Claims, Distribution, Underwriting, and Service Operations. With an AI Workforce for smarter, faster, and reliable insurance operations, Floatbot.AI reduces operational costs, enhances CX, and increases operational efficiency.

Floatbot's AI Workforce:

- Claims AI Hub
- LISA – Automate up to 80% of Claims FNOL
- ADDI – Streamline the tasks of claims adjusters and save 40+ hours per adjuster, per month
- Policy AI Hub
- AURA – Automate 80% of queries for agents, producers & underwriters

Service AI Hub: LEXI – Automate 60% of support calls

Platform Capabilities:

- No-code/low-code platform build & deploy AI Agents
- AI Execution pipeline
- Fine-tuned LLM on insurance-specific calls
- RAG Cognitive Search for seamless knowledgebase optimization
- Under 1 second latency Voice AI
- Bot interruption for frictionless conversations
- LLM Agentic Framework, powered by Agent M
- Zero hallucinations
- Real-time interaction of AI with CRM, Applications, Knowledgebase

Comprehensive Use Cases Facilitated by the Platform

- Claims FNOL (First Notice of Loss)/Intake/Intimation
- Claims Adjuster Assistance
- Policy Management/Servicing
- Customer Support/Service
- Omni-Channel Deployment
- Multi-Modal AI Agents
- Agent Productivity
- Compliance

Pre-Integrations: Floatbot.AI is pre-integrated with CCaaS and Insurance solutions such as Guidewire, INSTANDA, Socotra, GENESYS, Insurity, Five9, AVAYA, NICE CXone, etc.

Serving: Insurance Companies/Carriers, Insurance Agencies, Insurance Brokers, MGAs, TPAs.

<https://incheshealth.com/>

INCHES Healthcare Pvt Ltd, established in 2000 amid India's insurance sector privatization, delivers specialized medical, legal, and forensic expertise to insurers. The organisation addresses key challenges in underwriting function support, medical adjudication of claims, fraud mitigation, and operational efficiency, compensating for the typical absence of medical acumen among insurance professionals. InCHES pioneered the concept of medical audit of claims in 2010 and since has helped several insurers refine claim processes while saving Crores of rupees.

Over 25+ years, INCHES has processed more than 20 million transactions on underwriting risks and claim admissibility, analysed over 4 million claim cases, and conducted manual audits of over 2,20,000 claims—yielding multimillion-rupee savings for clients through evidence-based assessments. The team has further contributed rational opinions in over 1,950 proceedings at the Insurance Ombudsman and legal fora. InCHES has capability of handling over 1,50,000 transactions monthly.

ISO 27001-2022 certified operations, proprietary technology platforms, and a zero-error governance framework underpin INCHES'S commitment to precise risk evaluation, equitable settlements, and fraud prevention across India's insurance landscape.

- Africa Insurtech Rising - (<https://africainsurtechrising.com.ng/>)
- South East Asia
- Middle East and North Africa (MENA)

Key Business Objectives

- INCHES Healthcare Pvt Ltd prioritizes client acquisition and market expansion through targeted outreach to new insurers and Insurtech partners, focusing on high-volume underwriting mandates and innovative X-CLAIM solutions. With an office in Singapore to service APAC and ASEAN countries, InCHES now plans to spread foot print across Gulf and Africa.
- Insurance Underwriting Support
- Secure partnerships with 10+ new life and health insurers in 2026, scaling query processing from 20 million+ to support emerging digital platforms.
- Enhance financial and medical underwriting services for term plans and high-sum assured policies, leveraging automated risk tools for faster turnaround.
- X-CLAIM Insurtech Growth
- Launch X-CLAIM as a proprietary AI-driven platform for real-time claim admissibility, fraud detection, and audit workflows, targeting 50% market penetration among mid-tier insurers.
- Integrate with client portals to analyze 40 lakh+ claims annually, reducing leakage by 20-30% via predictive analytics and medico-legal insights.
- These objectives align with InCHES's zero-error ethos, driving sustainable revenue growth while reinforcing leadership in evidence-based insurance solutions.
- Quasi Medical Experiential Training
- Looking at partnerships with similar organisations across Gulf, Africa and ASEAN countries (both virtual and face to face).

Intermediaries & Ecosystem Platforms: Enable embedded insurance across banking, ecommerce, mobility, telecom, travel, and retail ecosystems through seamless API integration

<http://www.intellioasis.com>

Empowering Insurance Intermediaries through Intelligent Digital Transformation

At IntelliOasis, our mission is to empower insurance intermediaries with cutting-edge technology that streamlines operations, enhances client engagement, and drives sustainable growth in an increasingly competitive market. We provide a comprehensive suite of insurance-specific digital solutions designed to simplify, automate, and strengthen every aspect of intermediary operations – from lead generation and KYC to real-time policy issuance, compliance management, and IRDA quarterly reporting.

Every broker URL is certified for ISNP approval by CISA/DISA auditors, and VAPT (Vulnerability Assessment & Penetration Testing) is carried out for both UAT and Production environments, ensuring the highest levels of data security, system integrity, and compliance with regulatory standards.

Our modular and scalable platform helps brokers, agents, and other intermediaries achieve digital excellence with measurable results and faster time-to-market.

Our Solutions - Comprehensive Digital Platform for Intermediaries

Our unified digital workspace seamlessly integrates:

- Quotation & Proposal Management – Generate accurate, multi-insurer quotes instantly and share custom proposals.
- Comparison Engine – Compare premiums and coverage details across insurers in real time.
- KYC & Onboarding Module – Simplify customer onboarding through secure digital KYC verification and automated validation workflows.
- Client & Policy Management – Manage every stage of the policy lifecycle, from issuance and renewals to endorsements.
- Real-Time Policy Issuance – Enable faster conversions with instant insurer integration and automated policy document generation.
- Commissions & Payout Management – Automate commission calculations, reconciliations, and payout tracking for brokers and sub-agents.
- Compliance Management – Maintain complete regulatory adherence with built-in IRDA and data privacy compliance frameworks.
- IRDA Quarterly Report Generation – Automatically compile, validate, and format quarterly compliance reports as per IRDA requirements.
- Lead Management System – Drive higher conversion rates through intelligent lead tracking, prioritization, and follow-up automation.

Key Advantages: With IntelliOasis, intermediaries can:

- Go Live in just 6 weeks – Fast implementation and smooth migration process.
- Get a dedicated POSP app for seamless connectivity and agent engagement.
- Generate real-time APIs to integrate effortlessly with multiple insurers.
- Enable real-time policy issuance for faster turnaround and better customer experience.
- Conduct digital KYC verification for instant and compliant onboarding.
- Generate IRDA quarterly compliance reports automatically.
- Operate through CISA/DISA-certified URLs ensuring ISNP regulatory compliance.
- Rely on VAPT-audited environments (UAT & Production) for maximum security and uptime.
- Multiply lead conversions with smart engagement and CRM automation.
- Automate compliance reporting for effortless regulatory submissions.
- Increase customer lifetime value through personalization and renewal automation.

Our Commitment - We are committed to being the trusted digital transformation partner for insurance intermediaries – enabling them to scale efficiently, innovate faster, and deliver superior customer experiences.

Backed by a robust customer support and implementation team, IntelliOasis ensures that every client receives the right mix of customization, integration support, and operational agility.

Our focus is not just technology, but partnership – helping intermediaries evolve into digitally-enabled enterprises that lead the future of insurance distribution.

Key Business Objectives

- Identify New Clients

iNube is an insurance-focused technology company that has spent over fifteen years helping insurers modernize the way they operate. With a deep understanding of insurance processes across Life, Health, P&C, and Crop lines, the company builds digital ecosystems that simplify work for teams, bring clarity to complex workflows, and deliver smoother experiences for customers.

At the centre of this approach is the iNube Digital Platform, a unified, modular, API-native foundation built specifically for insurance. It serves as the digital DNA connecting product configuration, underwriting, policy servicing, claims, field activities, and distribution. Insurers can digitize one area at a time or expand across the value chain as their needs evolve, all while ensuring consistent data, predictable operations, and easy integration with partners and legacy systems.

On top of this platform, iNube has developed a suite of solutions that support critical insurance functions end-to-end:

Policy Administration Suite (PAS):

- Supports the complete policy lifecycle with configurable rules, advanced automation, and AI-augmented decisioning to improve efficiency and customer experience.
- Virtual Office: A digital workspace for agents and partners—enabling onboarding, assisted journeys, document management, and real-time updates across distribution networks.
- Claims Systems: An integrated claims environment with workflow automation, medical and technical validations, AI-driven fraud flags, and transparent communication to reduce TAT and leakage.
- Mobility Suite: Mobile-first tools for inspections, surveys, investigations, and field assessments, enabling real-time data capture and operational agility.
- Crop Insurance System: A specialized digital application that supports end-to-end crop policy issuance, claims handling, field data management, and operational reporting.

Enhancing this entire ecosystem is AI Quest, iNube's in-house AI Lab, which applies advanced AI and GenAI models to real operational challenges—helping teams summarize documents, identify anomalies, detect fraud patterns, interpret rules, and generate compliant communication with greater accuracy and speed.

Today, iNube works with insurers across India, the Middle East, Africa, and the Americas and continues to expand its global presence through international associations and collaborative networks.

The company's commitment remains constant: building technology that is dependable, scalable, and genuinely useful for insurers navigating an evolving and increasingly digital risk landscape.

<https://lumiq.ai/>

LUMIQ is a specialized AI and Data partner for the Financial Services Industry (FSI) with a 12+ year track record of delivering 100% successful projects for 50+ customers. We are pioneering the shift from "Copilots" to a true Agentic Workforce via our flagship platform, LiteCone.

The LiteCone Difference: We have solved the challenge of deploying Agentic AI in regulated industries by balancing creative reasoning with strict, deterministic workflows. Powered by insurance-specific Small Language Models (SLMs), our solutions are glass-box, explainable, and 100% auditable.

The Agentic Workforce

LEO (End-to-End Life Underwriter): Handles the full lifecycle from scrutiny to underwriting. Reduces issuance TAT from 1+ days to <6 minutes, enabling true zero-touch processing.

ARIS (End-to-End Health Claims Adjudicator): Manages the entire claims value chain. Utilizes deep medical expertise to interpret raw diagnostic imagery (ECGs, MRIs) without notations. Proven to prevent up to 10% leakage while reducing decisioning TAT to <30 minutes.

Our agentic fleet continues to grow with ERIC (Health Underwriter) and MARC (Life Claims Adjudicator).

Proven Impact & Trust

- Recognition: Winner, "Most Innovative Technology Implementation" at the 9th Edition CIO Conclave & Awards 2025.
- Production Scale: Delivering 100% auditable logs with zero hallucinations. Pilots can be deployed on carrier data in <4 weeks.
- Scale: Trusted by top insurers handling 4M+ annual claims and 2M+ life policies.

Strategic Objectives

- Deploy Agentic AI: Partner with global carriers to deploy LEO, ERIC, and ARIS for production-grade automation.
- Global Expansion: Establish LiteCone as the enterprise standard for autonomous AI in UK and SEA markets.

www.maomay.boz

Manomay Innsurtech is a trusted IT Consulting and Insurtech solutions partner for the global insurance industry, with a strong presence across the Caribbean and North American market.

About Us: The insurance industry is at an inflection point—where technology, processes, and teams are evolving into modern, connected, and rapidly advancing capabilities that match a world moving at exponential speed. At Manomay, we help guide and accelerate this momentum by reimagining what insurance can become when technology, business, and innovation collide with intent.

We help insurers step into a future defined by digital ecosystems, intelligent automation, data-led decision-making, and connected experiences. Our commitment is clear—to align every piece of technology to the core purpose of insurance: service, security, satisfaction, empowerment, and value. From strategy to execution, our customer's journey with us is one of reflection, co-creation, and constant reinvention!

Our Portfolio:

1. Strategic Transformation Services: As trusted advisors, we help translate vision into reality with measurable business benefits. We offer expertise in Digital Transformation, Digital Operating Model definition, IT-enabled business process redesign, Enterprise Core Platform vendor selection, and more—ensuring every decision is business-anchored and execution-ready.

2. Enterprise Implementation Services: As representatives, we support the successful implementation and/or upgrade of core enterprise platforms by providing solution architects, BAs, QA, PM, and other critical roles—ensuring the platforms form a strong foundation for tomorrow.

3. Data Services: As dedicated data partners, we support companies in their transition to becoming data-led organizations—helping them strategize, design, and implement data solutions for effective consumption of decisions, insights, and patterns using our in-house accelerators. We ensure robust data management and maintenance with a strong focus on governance and security to safeguard critical assets.

4. Innovation Solutions: As solution providers, we help strengthen and elevate technology landscape with proprietary products purpose-built for the insurance industry. Our focus spans critical use cases such as process automation, document digitization/automation, and self-service capabilities—designed to collapse inefficiencies and enhance business agility. Innovation lies in the DNA of Manomay; it is the discipline through which we reimagine white spaces, unlock intelligence, and set new industry benchmarks.

Our latest offering, Manomay's GenSure AI, brings this philosophy to life. GenSure AI is a natural-language querying interface that enables users to simply ask questions in plain language and instantly receive clear, contextual, and actionable insights—supported by reliable data points and intuitive visualizations.

<https://www.mybenefits360.com>

MyBenefits360 is a comprehensive, cloud-based Employee Benefits & Engagement management SaaS platform designed to simplify and streamline the distribution, management and support of core insurance, wellness benefits and fitness tracking. With built-in analytics, recommendation engines and intuitive dashboards, MyBenefits360 transforms benefits management, reduces risks and cuts costs. No matter the size of your organization, our platform ensures quick seamless onboarding, with even the most complex underwriting. The platform is also used by leading International & Domestic brokers managing benefits of over 1500 corporates and over 4.5 million lives cumulatively.

Key Benefits:

1. Quick and Efficient Onboarding - Onboard your organization within 60 to 120 minutes, even with complex underwriting requirements. Over 7,500+ unique, configurable combinations of traditional and modular wallet-based flexible benefits plans.
2. Highly Configurable - Deploy and engage employees swiftly, with customizable plans that suit their needs, be it traditional, modular or flex programs. Distribute both company-sponsored and complex voluntary plans effortlessly, enhancing employee engagement and employer satisfaction.
3. Comprehensive Integrations - Highest number of real-time API integrations with TPAs and insurers, facilitating E-cards, claims management and hospital network access. API-ready for seamless data exchange with HR systems, partners and vendors.
4. Intelligent Analytics - Utilize digitized data points from insurance, wellness and fitness domains to generate powerful analytics. Make informed decisions with comprehensive data aggregation, metrics tracking, cost savings, benchmarking and forecasting.

Core Features:

1. Insurance Management: Fully integrated platform with advanced recommendation engines and efficient claims management to streamline processes and improve service delivery.
2. Wellness Solutions: Comprehensive wellness offerings including diagnostics, medicine delivery, dental care, home healthcare, online doctor consultations, and a wellness marketplace to promote overall employee health.
3. Fitness tracking: Real-time fitness tracking, gamification features, aggregate health scores, and health challenges to encourage a healthy and active lifestyle among employees.
4. Data and Analytics: Robust data aggregation, detailed metrics tracking, cost-saving insights, benchmarking, and forecasting tools to enhance benefits management and strategy.

www.narayanahealth.insurance

Narayana Health Insurance Limited (NHIL) is a wholly owned subsidiary of Narayana Hrudayalaya Limited (Narayana Health), one of India's largest and most trusted healthcare providers. Built on the belief that high-quality healthcare should be accessible and affordable for all, NHIL brings together the clinical excellence of Narayana Health hospitals with innovative, customer-centric insurance solutions tailored to the needs of diverse population groups.

Backed by Narayana Health's robust network of multi-specialty hospitals, digital clinics, and outpatient centers, NHIL is uniquely positioned to integrate healthcare delivery with healthcare financing—ensuring seamless, transparent, and predictable customer experiences.

NHIL specializes in designing simple, high-value, and affordable insurance plans that address the realities of emerging markets, including high out-of-pocket healthcare spending, low insurance penetration, and distrust in traditional insurance systems.

Our strengths include:

- Integrated Care + Insurance Model - Direct linkages with Narayana Health facilities enable better care coordination, reduced over-treatment, transparent pricing, and faster claims.
- Affordable High-Cover Products - We offer industry-leading benefits such as ₹1 Crore surgical coverage, zero waiting periods, and comprehensive OPD/diagnostic support at accessible prices.
- Technology-Driven Customer Experience - Digital onboarding, instant premium calculation, cashless approvals, and transparent claim journeys minimize friction for customers.
- Clinical Governance & Trust of Narayana Health - NHIL, being a part of Narayana Health, ensures standardized care pathways, ethical medical practices, and consistent service quality across the network.

Our Service Offerings

NHIL provides a portfolio of health insurance solutions designed for individuals, families, corporates, and partners. Key offerings include:

1. Comprehensive Health Insurance Plans

- High-sum insured surgical coverage
- Hospitalization benefits
- Cashless treatment across provider network
- Day care procedures
- Pre- and post-hospitalization coverage

2. Zero Waiting Period Products*

- Industry-leading approach where:
- Initial waiting period = Nil
- Waiting period for specific illnesses = Nil
- Waiting period for pre-existing diseases = Nil

**Except where medical evaluation identifies a pre-disclosed condition prior to policy inception or in case mentioned by the under-writing team before the issuance of the policy.*

3. Preventive and Primary Care Integration (via Value Added Services)

- Annual health check-ups
- Diagnostic services
- Doctor consultations
- Digital health support

4. Corporate & Group Insurance Solutions

- Tailored employer-employee healthcare programs
- Outpatient + diagnostic bundles
- Pro-active and preventive care integrations

5. Cashless & Transparent Claims

A streamlined claims model supported by NH's large provider network ensures:

- Quick approvals
- Predictable treatment costs
- Reduced administrative burden
- Minimal out-of-pocket expenses

- Middle-income families
- Urban and semi-urban populations
- Corporate employees and SMEs
- Customers seeking affordable high-sum insured plans

<https://neuralkart.com>

Neuralkart is an AI-first InsurTech company focused on transforming underwriting, renewals, and claims operations for insurers. Founded by a team with deep experience in AI, engineering, and insurance, the company builds intelligent automation solutions that simplify decision making, reduce operational friction, and enhance risk assessment accuracy across insurance workflows.

The core product suite, branded as InsureMind, enables insurers to automate underwriting, streamline claims analysis, conduct risk audits, and run renewal propensity models - all using advanced AI and ML technologies.

Neuralkart aims to bring next-generation automation to insurers while maintaining transparency, compliance, and regulatory alignment.

Countries of interest

- Australia (InsurTech Australia -<https://insurtechaustralia.org/>)
- Global (Global Insurtech Alliance - <http://www.insurtechalliance.com/>)
- Insurtech NY - (<https://www.insurtechny.com/>)
- South East Asia
- Middle East and North Africa (MENA)
- United States

Key Business Objectives

Identifying New Clients and Expanding Market Reach

- Connect with global insurers, reinsurers, MGAs, and brokers
- Showcase InsureMind's capabilities in underwriting automation, claims analysis, and renewal propensity
- Unlock pilot opportunities in international markets (APAC, Middle East, Europe, ANZ)

Building Strategic Partnerships

- Establish relationships with technology accelerators, insurance associations, and digital transformation groups
- Partner with risk consulting firms, reinsurers, and system integrators
- Strengthen validation and credibility through recognized international networks

Raising Funds for Global Expansion

- Engage with venture funds, InsurTech-focused VCs, accelerators, and angel networks
- Raise capital to support product development, regulatory alignment, and global GTM
- Expand operations into new international markets
- 4. Talent Outreach / Hiring Opportunities
- Access global AI/ML, actuarial, and InsurTech talent pools
- Explore internship or fellowship programs through association networks
- Build specialized teams for global deployments and customer success

Learning Industry Best Practices

- Gain insights into advanced global underwriting and claims standards
- Explore partnerships around regulatory frameworks, compliance, and risk scoring
- Adapt InsureMind for international compliance requirements

Positioning Neuralkart as a Global AI-First Insurance Automation Platform

- Demonstrate differentiated value over niche tools and legacy systems
- Validate product roadmap with international experts
- Build brand visibility across the global InsurTech ecosystem

<https://newgensoft.com/>

Newgen is the leading provider of a unified digital transformation platform with native process automation, content services, and communication management capabilities. Globally, successful enterprises rely on Newgen's industry-recognized low-code application platform to develop and deploy complex, content-driven, and customer-engaging business applications on the cloud. From onboarding to service requests, lending to underwriting, and for many more use cases across industries. Newgen unlocks simple with speed and agility.

Newgen's low-code platform for insurance helps automate diverse insurance digital journeys, including customer and partner onboarding, underwriting, policy administration, Distribution and claims processing.

www.aisuraksha.in

At **Nivinsure**, we are building **AISuraksha**, a claims intelligence and compliance automation platform for health insurers, TPAs, and claims platforms.

AISuraksha helps claims teams make faster, more consistent, and defensible decisions by structuring claim documents, validating medical necessity against clinical guidelines, and guiding adjudication workflows – without replacing existing core systems.

Instead of standalone fraud alerts, AISuraksha delivers decision-ready clinical and financial intelligence that reduces manual medical review effort, shortens claim turnaround time, and improves approval consistency across cashless and reimbursement claims.

Fraud detection and regulatory compliance are embedded outcomes, not separate tools. AISuraksha automatically generates audit-ready evidence, FMU/RFI logs, and compliance documentation as a byproduct of better claims decisions.

The platform runs entirely on customer infrastructure (on-prem or VPC), ensuring zero PII/PHI exposure, and integrates seamlessly into insurer, TPA, and InsurTech workflows.

AISuraksha has been recognized with the Mint AI4Good Award 2025, and is building the claims intelligence layer for next-generation health insurance ecosystems in India and globally.

- Explore collaborations with reinsurers, TPAs, and health-tech platforms requiring claims intelligence and compliance automation.

<http://www.nizcare.com/>

Nizcare, India's Leading Health and Wellness Destination, brings state-of-the-art digital platform designed for seamless, comprehensive care. With a focus on accessibility, affordability, and personalization, we are redefining healthcare for insurers, corporates, and individuals nationwide and across the globe.

Nizcare is revolutionizing healthcare with a comprehensive suite of solutions tailored to meet lifecycle needs. From preventive care like diet planning, physical fitness, and vitals monitoring to attentive services such as condition management programs for diabetes, hypertension, and mental health, as well as niche offerings like pregnancy care, elder care, surgical assistance, and at-home recovery support – we bring it all together on a user-friendly platform.

Our services are delivered through a blend of in-house specialists and certified fulfilment partners, each an expert in their respective healthcare domains. We cater to insurance brokers, Insurtech firms, insurance companies, and corporates, enabling them to extend these services to their clients, retail customers, employees, and their families.

Future Growth Plans:

- Focused Vertical Expansion: Develop standalone verticals specializing in areas like eye care, dental care, and more.
- Enhanced Tech Platform: Strengthen our digital infrastructure with a personalized touch, ensuring accessibility for urban and rural populations alike, driving greater reach and utilization.
- D2C Vertical: Establish a direct-to-customer (D2C) model by setting up robust operations, networks, and technology to connect directly with consumers.
- Geographical Expansion: Broaden our footprint across India and venture into global markets, transforming healthcare accessibility on a larger scale.

By combining innovation, expertise, and scalability, Nizcare is poised to set new benchmarks in health and wellness delivery.

PROTECTOR iq

www.protectoriq.com

Protector IQ is an Insurance Product & Systems Innovation Studio that helps insurers, reinsurers, banks, and financial institutions design, test, and deploy insurance solutions that work in real-world conditions.

We operate at the intersection of risk, underwriting, technology, and field execution, supporting partners across the full product lifecycle – from product structuring and regulatory readiness to system scoping, UAT/QA, and post-launch optimisation.

Protector IQ works with complex and under-served risk segments, including MSMEs, livelihood-linked businesses, climate-vulnerable communities, and emerging commercial risks. Our approach is risk-first and implementation-led, ensuring that products and systems are not only innovative on paper but viable at scale.

Alongside advisory services, Protector IQ builds repeatable frameworks, tools, and SaaS-enabled capabilities to improve speed-to-market, reduce execution gaps, and strengthen underwriting and operational outcomes.

- Access global markets and use cases for adapting India-tested insurance and risk frameworks to other emerging markets

<https://pentaqube.com>

PentaQube is a specialized cybersecurity firm delivering SaaS-based risk assessment platforms for insurers and underwriters. We complement our technology with professional consulting and training, ensuring a comprehensive approach to cyber risk management and organizational resilience.

At the core of our offering is our SaaS-driven capability, anchored by platforms like CRUX, designed to streamline the complex lifecycle of cyber risk assessment. For cyber insurers and underwriters, our technology transforms technical data like attack surface vulnerabilities into underwriting insights linked to policy coverage, enabling precise risk selection and sustainable loss ratios.

Parallel to this, our GRC platform, Auriga, assists organisations in implementing strong GRC frameworks. The Auriga TPRM and QRM modules are already launched and provide vendor risk insights and allow quick and business ready responses to customer security questionnaires.

Beyond our platforms, PentaQube delivers high-touch consulting and advisory services. We recognize that software alone cannot solve every compliance nuance or cultural gap. Our team of experts assists enterprises in navigating complex frameworks, conducting rigorous audits, and implementing robust security architectures.

Key Business Objectives

- This PitchBook will help Revrag.ai accelerate global business expansion by leveraging international association partners to access new BFSI enterprises, open doors in untapped geographies, and build a strong pipeline of high-value clients.
- It strengthens brand credibility through thought-leadership exposure, enabling easier enterprise trust and faster adoption of our AI onboarding agents. It also unlocks strategic alliances with global tech and consulting partners, supporting scaled distribution.
- Additionally, the visibility helps attract senior talent and strengthens future fundraising conversations by showcasing international demand and market potential

RIA

www.ria.insure

RIA: An AI-First Insurance Holding Company

RIA is an AI-first insurance holding company dedicated to building and transforming the future of the insurance ecosystem. Inspired by the Berkshire/Fairfax model, we leverage cutting-edge AI to create and scale insurance businesses. Our mission is to redefine the insurance landscape by building AI-first businesses that address unmet needs of customers and drive innovation across the insurance value chain.

Our current holdings include:

1. GetRIA Technology: A Vertical AI company that provides the technology backbone for the insurance and healthcare ecosystem. Its flagship technology platform, Symphony, empowers insurers with agentic AI, advanced workflow automation, and a comprehensive rules engine to enhance decision-making and automate processes across product configuration, distribution, risk, underwriting, and claims. GetRIA operates in India and USA.

2. VisionSure: India's first dedicated vision benefits service provider. VisionSure is building the foundational infrastructure for vision care benefits, partnering with insurers and healthcare providers to offer comprehensive and accessible eye care solutions to millions of Indians.

By combining our deep insurance expertise with a relentless focus on AI-powered innovation, we are creating a new generation of insurance businesses that are more efficient, customer-centric, and impactful.

<https://www.riskcovry.com/>

Riskcovry is an AI-first insurtech infrastructure platform enabling insurers, brokers, banks, lenders, and digital enterprises to launch and scale insurance distribution globally. Founded in 2018, our unified API and middleware stack powers omni-channel journeys across life, health, motor, and specialty lines.

Having processed over \$500M+ in insurance premiums and serving 50+ enterprise clients, Riskcovry brings proven distribution infrastructure and scale from India to international markets. We are currently expanding across MENA and the UK, with active enterprise PoCs and partnerships underway, helping regional players modernize distribution, accelerate time-to-market, and build AI-ready insurance ecosystems.

Key Business Objectives

Riskcovry's primary objective through the IIA PitchBook is to deepen international enterprise partnerships as we expand across MENA and beyond.

Specifically, we aim to:

- Engage insurers, banks, brokers, MGAs, and large digital platforms evaluating modern insurance distribution and middleware infrastructure
- Build strategic partnerships with regional insurers, system integrators, and ecosystem players
- Strengthen credibility and visibility with global stakeholders supporting enterprise-grade adoption.

The PitchBook serves as a platform to enable long-term strategic conversations with partners aligned to Riskcovry's infrastructure-led growth.

www.risknox.ai

Risknox is an innovative cybersecurity and insurtech company dedicated to redefining how businesses and insurers approach cyber risk management. Our flagship platform, Resolute, is an AI-powered cyber risk management solution that quantifies cyber hygiene through a Cyber Hygiene Score, much like a credit score. This data-driven platform enables businesses to optimize their cybersecurity investments and insurers to enhance underwriting precision, bridging the gap between cybersecurity practices and insurance requirements.

Solutions/Offerings

1. Resolute Fortress: Empowers businesses with insights into cyber vulnerabilities, incident prediction, and potential financial impact to improve their cybersecurity posture.
2. Resolute Compass: Supports insurers with actionable data to refine underwriting, risk quantification, and pricing decisions.

In addition to the platform, Risknox offers services such as vulnerability assessments, penetration testing, and compliance audits to complement its solutions and address specific client needs.

Key Business Objectives

The PitchBook will help Rootally AI achieve several key objectives through international partnerships: expanding the client base by showcasing our innovative health solutions to new markets, forging strategic alliances to enhance global reach, and attracting investment to support technological advancements. It will also facilitate market penetration by adapting products to diverse health needs and understanding international regulatory landscapes. Additionally, the PitchBook will promote innovation through collaboration enhancing Rootally's capabilities in AI-driven health technology.

<http://www.rsutra.com>

Overview

Rsutra Analytics & Consulting assists clients in deploying Agentic AI, AI, n8n, RPA, OCR, Analytics, Dashboards, Data Engineering, GIS and web applications. Founded by ex-Big4 management consultants with 30 years of experience in Insurance and BFSI, we are headquartered in Mumbai, India and have clients across continents.

Services & Capabilities

We assist in tech-enabled process transformation and improving business insights. We have transformed insurers' and brokers' core processes like Sales, New Business, Underwriting, Claims, Customer Service, Endorsement and other processes in Distribution, Finance, Accounting, Risk, Reinsurance and HR. Our service delivery approach is project based as well as on T&M basis. We have strong resource pool of developers and industry experts with skills in AI, Data Science, Data Engineering, RPA, Agentic Automation, Process improvement / re-engineering, analytics, consulting and web technologies.

Delivery Approach

Organizations face challenge in deciding the right technologies and architecture for AI and Agentic rollout. The risk of failures is high and accessing partners with genuine expertise and skilled resources is a challenge. With our proven track record, domain knowledge, in-depth tech skills and robust project management, we have assisted leading insurers in large transformation initiatives. Our high success rates and service levels ensure that clients achieve business buy-in and desired RoI.

Our Alliances

We have partnerships with Microsoft (Power tools), Automation Anywhere, UiPath, AWS, Google, ESRI, for deploying new age AI, automation and Digitization solutions through consultative approach.
Achievements

We were awarded "20 Most promising Machine Learning startups" by CIO review magazine and "Excellence in Process Automation" by leading RPA automation solution OEM.

SHOVELTECH

www.shovelsolutions.in

Shoveltech Solutions Pvt Ltd, in association with Centrico Insurance Repository Limited [CIRL—formerly known as CDSL Insurance Repository Limited], is excited to introduce our newly developed solution for the insurance industry and their network hospitals, designed to revolutionise the processing of health claims. As pioneers in this domain, we believe our innovative solution will streamline operations, enhance transparency, and significantly benefit both hospitals and insurance providers.

National Health Claims Exchange [NHCX] Overview

In the dynamic healthcare sector, the National Health Claims Exchange (NHCX) by the National Health Authority (NHA) emerges as a transformative solution. By leveraging data-driven processes, NHCX streamlines operations, enhances transparency, and ensures compliance, paving the way for a more efficient and collaborative healthcare ecosystem. This initiative promises to deliver much-needed advancements in healthcare claims processing.

Shoveltech's Initiative

Shoveltech & CIRL NHCX Connector seamlessly integrates with the existing IT systems of hospitals, insurers, and TPAs, delivering unmatched efficiency and compliance with National Health Authority [NHA] and Insurance Regulatory and Development Authority of India [IRDAI] guidelines. It accelerates claim approvals for hospitals and enhances operational agility for insurers and TPAs, bridging the gap between stakeholders with precision. Tailored to optimise workflows, it ensures a streamlined claims process while minimising disruptions, empowering all parties with a robust, future-ready solution. Shoveltech & CIRL are your trusted partners for transforming healthcare operations. Our solution ensures seamless compliance with ABDM-NHCX guidelines while revolutionising the healthcare ecosystem. Hospitals, insurers, and TPAs can effortlessly adopt cutting-edge NHCX features to deliver superior patient experiences, enhance operational efficiency, and minimise costs.

<https://silverbullet.tech/>

ISilverBullet is a leading financial B2B gateway platform transforming Investments, Insurance, and Lending. It empowers insurers, banks, and fintech platforms with plug-and-play API integrations to quickly launch digital solutions, enhancing customer experiences with dynamic tech infrastructure.

Gateways Overview:

1. Insurance Gateway: A scalable solution connecting insurers with distribution partners to simplify sales processes. It enables multi-insurer quotes, proposals, and policy issuance across:

- Life Insurance: Term Plans, Savings, ULIPs, Endowments
- General Insurance: Motor, Travel, Cyber, Property
- Health Insurance: Family, Senior Citizen, Arogya Sanjeevani, Mediclaim Policies

Key Benefits:

- Unified Integration: Connect with all major insurers through one platform.
- Ease & Flexibility: Switch between insurers and products effortlessly.
- Comprehensive Tools: Manage journeys with dashboards, CRMs, and instant premium calculators.
- Security & Performance: Features like encryption, serverless architecture, and high availability.
- Seamless Implementation: Standardized APIs for smooth UI/UX integration.

Market Impact: By bridging gaps in insurance distribution, ISB enables insurers to expand their reach and distributors to tap into untapped markets.

Distributors using our Insurance Gateway Platform:

HDFC Securities, Arka, Coversure, Policy Bazar Partners, Nivesh, Tata Digital, KVB, Angel One, Armour, OneInfinity, Axis Securities, Paynearby, AssetPlus, Wealth Right, Latin Manharlal, Insurance Padosi, Funds India, Autohangar, and Impact Guru.

2. Wealth Gateway: ISilverbullet provides a comprehensive gateway that connects key players in the wealth management ecosystem, including portfolio managers, asset managers, AIFs, banks, NBFCs, neo-banks, wealth tech companies, fintech platforms, wealth advisors, RIAs, distributors, and IFAs.

The platform supports a wide range of financial products, such as: PMS (Portfolio Management Services), AIF (Alternative Investment Funds), MLD (Market Linked Debentures), Alternate Debt, Fixed Deposits

Key Features of the Wealth Gateway:

- Wide Adoption: Over 100+ AMCs and 300+ distributors use the ISilverBullet Wealth Gateway platform.
- Low-Code Platform: Easily onboard investors digitally in just a few days
- Seamless Integration: Pre-built integrations for smooth onboarding and payment processing.
- Security & Compliance: Fully secured and compliant with regulations, with flexible deployment options—either on-premise or on the cloud.
- Open APIs: Easily embed new products into existing offerings with customizable open APIs.

www.symbo.co

Symbo is a leading insurtech broker revolutionizing the way insurance is embedded and distributed across industries. Think of Symbo as the ultimate "insurance gateway"—a comprehensive solution for enterprises to offer contextual, relevant, and intuitive insurance products to their end consumers, seamlessly integrated into their ecosystems. With just 1 API, we empower brands to access and distribute general, life, and health insurance from 40+ insurers across India, creating a scalable, tailored approach that delivers maximum value.

At Symbo, we are a team of driven professionals passionate about not just simplifying insurance but building profitable and scalable insurance ecosystems for our partners. Our goal is to enable systems that solve genuine risk for customers while maximizing value for enterprises.

Our platform-agnostic infrastructure is customized to meet the unique needs of partners in fintech, BFSI, logistics, travel, ecommerce, healthtech, and more. From onboarding to policy management and claims processing, we offer end-to-end solutions complemented by customizable dashboards and tailored GTM strategies designed to maximize insurance penetration and customer satisfaction.

We serve as enablers for brands seeking to build their own insurance ecosystems and also work closely with insurers to slice and dice underwriting into solutions that fit each partner's unique requirements. Our robust middleware bridges insurers and distributors, simplifying insurance attachment for enterprise partners while reshaping how insurance is experienced and accessed.

With 50+ partners, handling over 5 million policies per month and 30,000+ claims processed monthly, Symbo is at the forefront of driving growth and innovation in digital insurance distribution. Headquartered in Andheri, Mumbai, we are proud to be the partner of choice for enterprises looking to integrate insurance into their core offerings.

TECH90ONE

<http://www.tech90one.com>

Tech 90 One Solutions LLP is a niche (Re)InsurTech company focused on building purpose-driven technology solutions for the reinsurance ecosystem. Founded by professionals with deep domain experience in reinsurance broking and operations, the company addresses long-standing challenges such as workflow inefficiencies, data fragmentation, and relationship management gaps faced by reinsurance brokers.

Its flagship product, REZO, is a comprehensive reinsurance broker management system designed to streamline end-to-end reinsurance operations. REZO enables brokers to manage treaty and facultative placements—both proportional and non-proportional—along with endorsements, technical accounts, claims, settlements, and compliance workflows on a single unified platform. Built specifically for reinsurance brokers, REZO enhances operational visibility, reduces manual dependency, and improves control across the reinsurance offer lifecycle.

KAIWA complements REZO by focusing on relationship and engagement management. It helps professionals capture meeting notes, track interactions, manage follow-ups, events, client information, ratings, and key relationship milestones, strengthening client relationships and improving business development effectiveness.

Together, REZO and KAIWA offer a practical, broker-centric technology stack that combines operational efficiency with relationship intelligence, supporting reinsurance brokers in India and international markets, including MENA and Africa.

<https://valuenable.in/>

ValuEnable is a 3-year old and start-up focused on solving problems for the 23 Cr. existing life insurance policyholders in India, zeroing on policy continuance, retention and existing customer management. Our multi-stack platform has till date addressed INR 16,000 Cr worth of surrender intents and revived policies worth Rs. 170 cr premium with 9 of the top 10 private life insurers.

Content Engine - Our B2B SaaS platform - helps customise communication with policy level benefit/loss quantifications for our insurer partners, which was hitherto practically missing for existing life insurance customers.

Policy Loan Marketplace helps insurance policyholders avail low interest secured loans against their policies from a choice of lenders on our platform - from the comfort of their homes, on the same day ! This in turn helps life insurers in AUM retention and renewal premium collections.

Our Buyout Platform helps create a market for pre-owned policies, leading to a win-win-win for policyholders (by helping them with liquidity while they retain life cover), investors (by giving them access to an instrument with superior risk-return profile) & life insurers (by helping AUM retention and future renewal collection.)

ValuEnable is founded by actuaries Mithil Sejpal and Satprem Mohanty who started ValuEnable post a decade each in the private life insurance industry with organisations such as HDFC Life and ICICI Pru. Rainmatter (Zerodha's fintech focused fund) is a key investor in ValuEnable.

VISIONSURE

<https://www.bevisionsure.com/>

The Problem: A Massive, Untapped Opportunity in Indian Healthcare

Are you looking to differentiate your health benefits offering or health insurance products and tap into a vast, underserved market? The Indian healthcare landscape has a significant and unaddressed gap: vision care. For millions of Indians, access to quality eyecare and eyewear remains a challenge due to issues with accessibility and affordability.

This presents a strategic opportunity for forward-thinking insurers, intermediaries, and wellness aggregators. The demand for vision benefits has always existed, but a scalable, organized solution has been missing. Until now.

About VisionSure: Your Dedicated Partner in Vision Benefits

VisionSure is India's first dedicated vision benefits service provider created with a single mission: to build the enabling infrastructure for vision benefits in India.

VisionSure will help you give your customers access to high quality, organised, and affordable healthcare services from its network of eyewear and eyecare service partners. We provide care co-ordination and access to benefits across eyewear, eye surgeries, eye camps, ophthalmology, prevention services, etc. We empower you to offer comprehensive and flexible vision care benefits to your customers, while we manage the operational complexity.

VisionSure has a cutting edge AI first technology platform that ensures scalability and supports an amazing experience for your customers when they use your benefits.

How to Access Our Service: A Simple Partnership Model

Partnering with VisionSure is straightforward. We are built to integrate with your existing business model, allowing you to expand your offerings with minimal effort. You focus on what you do best – owning the customer relationship and creating and distributing the right healthcare plans and health insurance products. We provide the complete backend solution – Whether you are an Insurance Company looking to embed vision benefits into your group or retail health products, a Healthcare Company adding a compelling vision wellness product to your customers, or a Wellness Aggregator wanting to add vision care to your suite of services, VisionSure is your ideal partner.

www.watchyourhealth.com/

Watch Your Health (WYH): SaaS Platform for Customer Engagement

WYH bridges the gap between individuals, healthcare providers, and businesses, empowering users to take control of their health while enabling organizations to boost customer loyalty, optimize outcomes, and drive growth.

Key Problems Solved

- Low Engagement: Personalization fosters satisfaction and loyalty.
- Retention: Tailored strategies reduce churn.
- Revenue Loss: AI tools boost cross-sell/up-sell opportunities.
- Data Challenges: Actionable insights from advanced analytics.
- Proactive Care: Predictive tools forecast health risks.
- Population Insights: HRAs address broader health needs.

Core Features

- AI-Driven Tools: Health monitoring, dietary advice, skin analysis, and predictive analytics.
- Tracking & Monitoring: Steps, sleep, health metrics, and habit tracking.
- Health Support: Disease management, mental wellness, post-discharge care, and OPD tie-ups.
- Engagement Tools: Gamification, virtual coaching, reward programs, and social sharing.

Insurance Use Cases

- Retention & Sales: Personalized tools enhance loyalty and increase sales.
- Cross-Sell Opportunities: Behavioral insights drive relevant product recommendations.
- Underwriting: HRAs enable precise risk assessment.
- Employee & Agent Engagement: Wellness programs and productivity tools boost performance.

WYH combines cutting-edge AI with user-focused solutions to deliver superior health outcomes and business growth.

Key Business Objectives

Through international association partners, Zyla Health can foster possible business collaborations by co-developing innovative health solutions, forming technology alliances and expanding into new markets. Additionally, these partnerships provide access to identify new clients, including multinational corporations, global insurers and healthcare providers, enabling Zyla Health to scale its offerings and drive growth.

<https://www.hizuno.com/>

Zuno General Insurance, formerly known as Edelweiss General Insurance, is a new-age digital insurer with an aspiration to reimagine Insurance to make it easy, friendly, and transparent. Amidst all the jargon and seriousness, Zuno is the friendly voice speaking in a language you understand, and listening to what you have to say, stepping in at the right time, so that you don't have to worry when things don't go as planned. Zuno is the friend you can always turn to for help, with the confidence that we will have your back at all times.

At Zuno GI, the focus is on building trust through digital solutions that are intuitive and responsive, using consumer insights and data analytics to drive innovation and experience. Our consumer insight driven strategy focused on customers experience, innovative solutions and an intuitive digital platform differentiates us in a competitive market.

Zuno GI started operations in 2018 and has won multiple awards at renowned industry forums for product & technology innovations, digital platforms, superlative customer experience, innovative marketing campaigns and preferred workplace. It is India's first cloud native insurer and the first insurer to launch an open API platform. We have over 3 million customers and a growing omnichannel distribution on digital rails. The company has presence across key digital marketing places and partnerships with Maruti, Tata Motors, Mahindra, Skoda, Volkswagen, Jeep, OLA, PolicyBazaar, Turtlemint, Dunzo, PhonePe, Insurance Dekho, Fedbank Financial Services, Dvara KGFS, Repco Home Finance, ART Housing Finance, Renewbuy, Bajaj Capital, Anandrathi Global Finance, Avanse Financial Services, Zopper, Spinny, etc.
